

ALCANTARA

Alcantara

Our history —————

Founded in 1972, Alcantara represents one of the leading **Made in Italy** brands. A registered trademark of Alcantara S.p.A. and the result of unique and proprietary technology, Alcantara® is a **highly innovative material** offering an unparalleled combination of sensory, aesthetic and functional characteristics.

Lanvin – F/W Capsule Collection

Thanks to its extraordinary qualities and values, Alcantara is the chosen material for leading brands **in many fields of application**: fashion and accessories, automotive, marine and aviation, interior design and consumer-electronics.

Alcantara S.p.A – Milan Headquarters

The design community also understood the **endless potential** of Alcantara and its ability to constantly **renew itself**.

These features, together with a serious and certified commitment to sustainability, make Alcantara a true icon of contemporary lifestyle.

Maserati - MC20

Made to be extraordinary

Global brand

Alcantara is chosen by leading global and luxury brands and operates worldwide.

Made in Italy

“Made in Italy” is the unique ability to combine high-tech processes and craftsmanship. From the Umbrian hills the material travels to the World.

Sustainability

The Company has a pioneering role in sustainability, being **the first Italian industrial company**, and **among the very first in the world**, to reach the status of **Carbon neutrality** in 2009.

Rode - NTH 100

Tailor-made

Tailor-made means the capability to develop **exclusive solutions**, which are a combination of style and technology, beauty and functionality.

Art, Design & Creativity

For many years Alcantara has been cultivating a relationship with **top representatives from the design community**, who use the material for their creations.

Made to inspire

One material,
endless applications. ———

The versatility of Alcantara, capable of marrying **tradition and innovation**, technology and craftsmanship, brings life to an infinite array of applications.

Collection

The material of the future —————

The result of an unique, exclusive technology, Alcantara is a **truly cutting-edge material, which can be used to cover any shape or surface.**

Resistant

Provides high-grip surface and comfort

Warm in the winter and cool in the summer

Microsoft – Surface Laptop

Light and breathable

Can be washed and ironed

Resistant to light and heat also ideal for outdoor use

Extreme customization —————

To answer to the need for extreme customization, Alcantara has a **Research and Development Centre** born with the aim of designing new products and production processes.

The R&D Centre has been completed with a special unit able to develop **extreme customizations** by combining complex technologies, to provide customers **the finished product ready for assembling.**
